A corresponding \$72,588 lease liability remains, which will be recognized as income if and when the non-recourse lease is terminated. The above items will be excluded from "net income, as adjusted" and "FFO, as adjusted."

Further, "net income," "net income, as adjusted," "FFO" and "FFO, as adjusted" for the three months ended June 30, 2019 will include an \$8.4 million (at share) reduction in income from the non-cash write-off of straight-line rent receivables and \$5.6 million of non-cash expense for the time-based equity compensation granted in connection with the previously announced new leadership group. Additional non-cash expense associated with these awards will be \$2.4 million in each of the next two quarters, \$9.6 million in each of 2020 and 2021, \$7.7 million in 2022 and \$2.7 million in 2023.

FFO is computed in accordance with the definition adopted by the Board of Governors of NAREIT. NAREIT defines FFO as GAAP net income or loss adjusted to exclude net gains from sales of depreciable real estate assets, real estate impairment losses, depreciation and amortization expense from real estate assets and other specified items, including the pro rata share of such adjustments of unconsolidated subsidiaries. FFO and FFO per diluted share are non-GAAP financial measures used by management, investors and analysts to facilitate meaningful comparisons of operating performance between periods and among our peers because it excludes the effect of real estate depreciation and amortization and net gains on sales, which are based on historical costs and implicitly assume that the value of real estate diminishes predictably over time, rather than fluctuating based on existing market conditions. FFO does not represent cash generated from operating activities and is not necessarily indicative of cash available to fund cash requirements and should not be considered as an alternative to net income as a performance measure or cash flow as a liquidity measure. FFO may not be comparable to similarly titled measures employed by other companies. In addition to FFO, we also disclose FFO, as adjusted. Although this non-GAAP measure clearly differs from NAREIT's definition of FFO, we believe it provides a meaningful presentation of operating performance.
