

Vornado Announces Its Third Quarter Share of Toys ''R'' Us Financial Results

Company Release - 9/13/2006

PARAMUS, N.J.--(BUSINESS WIRE)--Sept. 13, 2006--

Vornado Realty Trust (NYSE:VNO) announced today that it will record its 32.9% share of Toys' second quarter results in its third quarter ending September 30, 2006. Vornado's results will include a net loss of \$36,414,000 or \$.21 per diluted share from Toys and negative Funds From Operations ("FFO") of \$30,173,000, or \$.18 per diluted share. The business of Toys is highly seasonal; historically, Toys' fourth quarter net income accounts for more than 80% of its fiscal year net income.

Attached is a summary of Toys' financial results and Vornado's 32.9% share of its equity in Toys' net loss, as well as reconciliations of net loss to earnings before interest, taxes, depreciation and amortization ("EBITDA") and FFO.

Vornado Realty Trust is a fully-integrated equity real estate investment trust.

Vornado's 32.9% share of Toys' EBITDA \$ 34,871

(1) EBITDA represents "Earnings Before Interest, Taxes, Depreciation and Amortization." Management considers EBITDA a supplemental measure for making decisions and assessing the unlevered performance of its segments as it relates to the total return on assets as opposed to the levered return on equity. As properties are bought and sold based on a multiple of EBITDA, management utilizes this measure to make investment decisions as well as to compare the performance of its assets to that of its peers. EBITDA should not be considered a substitute for net income. EBITDA may not be comparable to similarly titled measures employed by other companies.

> Toys "R" Us, Inc. Funds From Operations - Unaudited For the Quarter Ended July 29, 2006

(Amounts in thousands)

Reconciliation of Vornado's net loss from its investment in Toys to FFO (1): Net loss \$ (36,414) Depreciation and amortization of real property 12,155 Net gain on sale of real estate (329) Income tax effect of above adjustments (5,585)

(1) FFO is computed in accordance with the definition adopted by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"). NAREIT defines FFO as net income or loss determined in accordance with GAAP, excluding extraordinary items as defined under GAAP and gains or losses from sales of previously depreciated operating real estate assets, plus specified non-cash items, such as real estate asset depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. FFO is used by management, investors and industry analysts as supplemental measures of operating performance of equity REITs. FFO should be evaluated along with GAAP net income and income per diluted share (the most directly comparable GAAP measures), as well as cash flow from operating activities, investing activities and financing activities, in evaluating the operating performance of equity REITs. Management believes that FFO is helpful to investors as supplemental performance measures because these measures exclude the effect of depreciation, amortization and gains or losses from sales of real estate, all of which are based on historical costs which implicitly assumes that the value of real estate diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, these non-GAAP measures can facilitate comparisons of operating performance between periods and among other equity REITs. FFO does not represent cash generated from operating activities in accordance with GAAP and is not necessarily indicative of cash available to fund cash needs as disclosed in the Company's Consolidated Statements of Cash Flows. FFO should not be considered as an alternative to net income as an indicator of the Company's operating performance or as an alternative to cash flows as a measure of liquidity.
