FFO is computed in accordance with the definition adopted by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"). NAREIT defines FFO as GAAP net income or loss adjusted to exclude net gains from sales of depreciated real estate assets, real estate impairment losses, depreciation and amortization expense from real estate assets and other specified non-cash items, including the pro rata share of such adjustments of unconsolidated subsidiaries. FFO and FFO per diluted share are non-GAAP financial measures used by management, investors and analysts to facilitate meaningful comparisons of operating performance between periods and among our peers because it excludes the effect of real estate depreciation and amortization and net gains on sales, which are based on historical costs and implicitly assume that the value of real estate diminishes predictably over time, rather than fluctuating based on existing market conditions. FFO does not represent net income and should not be considered an alternative to net income as a performance measure. FFO may not be comparable to similarly titled measures employed by other companies. A reconciliation of our net income to FFO is provided above. In addition to FFO, we also disclose FFO, as adjusted. Although this non-GAAP measure clearly differs from NAREIT's definition of FFO, we believe it provides a meaningful presentation of operating performance. Reconciliations of FFO to FFO, as adjusted are provided on page 2 of this press release.

2016 BUSINESS DEVELOPMENTS

Investment Activities

On March 17, 2016, we entered into a joint venture, in which we own a 33.3% interest, which owns a \$142,050,000 mezzanine loan. The interest rate is LIBOR plus 8.875% (9.32% at June 30, 2016) and the debt matures in November 2016, with two three-month extension options. At June 30, 2016, the joint venture has a \$7,950,000 remaining commitment, of which our share is \$2,650,000. The joint venture's investment is subordinate to \$350,000,000 of third party debt. We account for our investment in the joint venture under the equity method.

On May 20, 2016, we contributed \$19,650,000 for a 50.0% equity interest in a joint venture that will develop a 33,000 square foot office and retail building, located on Houston Street in Manhattan. The development cost of this project is estimated to be approximately \$104,000,000. At closing, the joint venture obtained a \$65,000,000 construction loan, of which approximately \$22,100,000 was outstanding at June 30, 2016. The loan, which bears interest at LIBOR plus 3.00% (3.47% at June 30, 2016), matures in May 2019 with two one-year extension options. Because this joint venture is a VIE and we determined we are the primary beneficiary, we consolidate the accounts of this joint venture from the date of our investment.

Dispositions

On May 27, 2016, we sold a 47% ownership interest in 7 West 34th Street, a 477,000 square foot Manhattan office building leased to Amazon, and retained the remaining 53% interest. This transaction was based on a property value of approximately \$561,000,000 or \$1,176 per square foot. We received net proceeds of \$127,382,000 from the sale and realized a net gain of \$203,324,000, of which \$159,511,000 is recognized this quarter and is included in "net gain on disposition of wholly owned and partially owned assets" in our consolidated statements of income. The remaining net gain of \$43,813,000 has been deferred until our guarantee of payment of loan principal and interest has been removed or the loan has been repaid. We realized a net tax gain of \$90,017,000. We continue to manage and lease the property. We share control over major decisions with our joint venture partner. Accordingly, this property is accounted for under the equity method from the date of sale.

2016 BUSINESS DEVELOPMENTS

Financing Activities

On February 8, 2016, we completed a \$700,000,000 refinancing of 770 Broadway, a 1,158,000 square foot Manhattan office building. FFO is computed in accordance with the definition adopted by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"). FFO is computed in accordance with the definition adopted by the Board of Governors of the National Association of Real Estate investment Irusts (TNAREIT). NAREIT defines FFO as GAAP net income or loss adjusted to exclude net gains from sales of depreciated real estate assets, real estate impairment losses, depreciation and amortization expense from real estate assets and other specified non-cash items, including the pro rata share of such adjustments of unconsolidated subsidiaries. FFO and FFO per diluted share are non-GAAP financial measures used by management, investors and analysts to facilitate meaningful comparisons of operating performance between periods and among our peers because it excludes the effect of real estate depreciation and amortization and net gains on sales, which are based on historical costs and implicitly assume that the value of real estate diminishes predictably over time, rather than fluctuating based on existing market conditions. FFO does not represent net income and should not be considered an alternative to net income as a performance measure. FFO may not be comparable to similarly titled measures employed by other companies.

FAD is a non-GAAP financial measure that is not intended to represent cash flow and is not indicative of cash flow provided by operating activities as determined in accordance with GAAP. FAD is presented solely as a supplemental disclosure that management believes provides useful information regarding the Company's ability to fund its dividends.

⁽²⁾ FAD payout ratios on a quarterly basis are not necessarily indicative of amounts for the full year due to fluctuation in timing of cash based expenditures, the commencement of new leases and the seasonality of our operations.

⁽¹⁾ EBITDA represents "Earnings Before Interest, Taxes, Depreciation and Amortization." Management considers EBITDA a non-GAAP financial measure for making decisions and assessing the unlevered performance of its segments as it relates to the total return on assets as opposed to the levered return on equity. As properties are bought and sold based on a multiple of EBITDA, management utilizes this measure to make investment decisions as well as to compare the performance of its assets to that of its peers. EBITDA should not be considered a substitute for net income. EBITDA may not be comparable to similarly titled measures employed by other companies.

⁽¹⁾ Represents the extended maturity for certain loans in which we have the unilateral right to extend.

On March 15, 2016, we notified the servicer of the \$678,000 mortgage loan on the Skyline properties in Virginia that cash flow will be insufficient to service the debt and pay other property related costs and expenses and that we were not willing to fund additional cash shortfalls. Accordingly, at our request, the loan has been transferred to the special servicer. Consequently, based on our shortened estimated holding period for the underlying assets, we concluded that the excess of carrying amount over our estimate of fair value was not recoverable and recognized a \$160,700 non-cash impairment loss in the first quarter of 2016. The Company's estimate of fair value was derived from a discounted cash flow model based upon market conditions and expectations of growth and utilized unobservable quantitative inputs including a capitalization rate of 8.0% and a discount rate of 8.2%. In the second quarter of 2016, cash flow became insufficient to service the debt and we ceased making debt service payments. Pursuant to the loan agreement, the loan is in default, causing the loan to be immediately due and payable, and is subject to incremental default interest which increased the weighted average interest rate from 2.97% to 4.51% while the outstanding balance remains unpaid. For the three and six months ended June 30, 2016, we accrued \$2,711 of default interest expense. We continue to negotiate with the special servicer. There can be no assurance as to the timing or ultimate resolution of this matter.

(3) Pursuant to an existing swap agreement, \$415,000 of the loan bears interest at a fixed rate of 4.78% through March 2018, and the balance of \$160,000 floats through March 2018. The entire \$575,000 will

⁽³⁾ Pursuant to an existing swap agreement, \$415,000 of the loan bears interest at a fixed rate of 4.78% through March 2018, and the balance of \$160,000 floats through March 2018. The entire \$575,000 will float thereafter for the duration of the loan.

Weighted Average Annual Rent PSF for office properties excludes garages and diminimous amounts of storage space. Weighted Average Annual Rent PSF for retail excludes non-selling space. Excludes US Post Office leased through 2038 (including four five-year renewal options) for which the annual escalated rent is \$11.78 PSF.
75,000 square feet is leased from the office condo.
As of June 30, 2016, we own junior and senior mezzanine loans of 85 Tenth Avenue with an accreted balance of \$174.3 million. The junior and senior mezzanine loans bear paid-in-kind interest of 12% and 9%, respectively, and mature in May 2017. We account for our investment in 85 Tenth Avenue using the equity method of accounting because we will receive a 49.9% equity interest in the property after repayment of the junior mezzanine loan. As a result of recording our share of the GAAP losses of the property, the net carrying amount of these loans is \$29.1 million on our consolidated balance sheets.
Excludes the Company's junior and senior mezzanine loans which are accounted for as equity.
Leased by Alexander's through January 2037.
Represents the contractual debt obligations.
